

International Feng Shui Federation

國際風水專業學會

Our Mission

Feng Shui can be interpreted as the ancient Chinese wisdom of harmonious living for modern times.

The ancient art of Feng Shui has guided the Chinese people for thousands of years in designing cities, building homes, and burying the dead. Deeply rooted in Taoist and shamanic origins, it is not simply a list of directives for building auspicious structures or arranging interiors for good luck. It is the art of reading the patterns of the universe and living in harmony with the environment.

In accordance with the traditional Chinese thought, our life is influenced by destiny, luck, feng shui, philanthropy, and education, etc. Destiny is the inheritance of, and influence by, conditions already determined at our births. Though we cannot change our destiny, we can predict the timing of events and adapt to circumstances accordingly. If our destiny does not seem rosy, we can look to Feng Shui (Chinese Geomancy) for help.

Today, as people become aware of the need to recover an intimate relationship with the earth and the ecosphere, Feng Shui offers a set of pragmatics in choosing a home, locating a business, developing ecologically sensitive land use, and planning a harmonious neighbourhood.

Nowadays, Feng Shui is getting increasingly popular and is rapidly gaining acceptance around the world. Feng Shui is NOT just

another passing fad, to be discarded when interest has worn off. Actually Feng Shui is a study which reveals the essence of Chinese cosmology and metaphysics. Uncertainties and risks abound in daily life. Unfortunately, Traditional Feng Shui has been perceived as superstition and NOT scientific.

Theory of Feng Shui has been widely applied in the government buildings, residential and commercial developments. The scope of Feng Shui has also been extended to Town Planning, Master Layout Planning, Construction Projects, Interior Design and Fitting-out Works, Property Management, and Facility Management, etc.

The **AIM** of establishing the **International Feng Shui Federation (IFSF)** by the President (Master Holy WONG) and Vice President (Ir. Dr. Teddy NG, , Ph.D, FRICS, FCIIOB, FHKIS, MHKIE, RPE, RPS, Chartered Surveyor, Registered Professional Engineer) **IS TO** promote and explore the **True School of Thought of Scientific Construction Feng Shui**, its underlying principles and philosophy, and its practical aspects so that members of IFSF can appreciate and explore the mystical science of Feng Shui. They can be aware of the invisible energies that exist in the environment. They can apply the art of Feng Shui to meet their own needs and incorporate it into their daily life. It really harmonizes and enriches our modern living (i.e. Good Health, Prosperity and Harmony).

IFSF shall promote the genuine knowledge and wisdom of Chinese Feng Shui to the rest of the world. IFSF shall also defend and sustain its value by promoting Feng Shui to gain international popularity and acceptance.
